Assembly Instruction

Moonbeam

Pendant Lamp

HARDWARE IDENTIFICATION

BEFORE ASSEMBLY

- 1 Read through the instructions carefully before starting assembly.
- 2 Check the contents of the package
(contact the point of sale if you find anything defective or missing).
- 3 Make sure that the indicated tools are available.
- 4 All lights must be wired according to Local and National electrical codes.
- 5 To be installed by a professional electrician.
- 6 Assemble step by step as shown in the instructions.
- 7 It is a good idea to use a soft, protective underlay during assembly.

CAUTION

All electrical components are CUL approved with this fixture

To reduce the risk of fire, use
max 40 watt E26
120V 60HZ AC Only

SOME USEFUL ADVISE

- All lights must be wired according to Local and National electrical codes.
- To be installed by a professional electrician.
- You should check and re-tighten the screws and bolts a few weeks after assembly.
- For cleaning, use mild soapy water only and dry with a soft cloth
(other cleaning agents may cause damage not covered by warranty.)

Please keep this assembly instruction in a safe place for future reference.

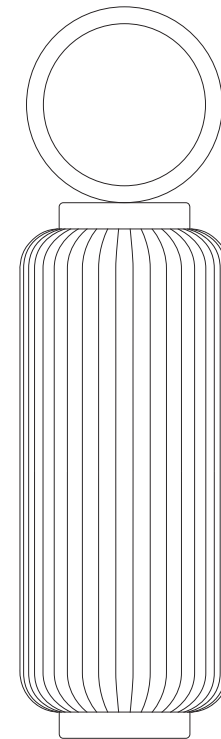

120V 60Hz
E26 TYPE A Max 40W

Bulb not included
